Solar glass integration in Georgia

Overview

Will a new solar glass plant in North Georgia create a strong supply chain?

“SOLARCYCLE’s announcement of hundreds of jobs coming to a new, cutting-edge solar glass plant in North Georgia further cements the Peach State as a national leader in domestic solar manufacturing, and they will play a pivotal role in creating a robust supply chain for the United States emerging solar footprint.

How many jobs will solarcycle® create in Polk County?

Cedartown, Georgia (February 15, 2024) – SOLARCYCLE®, an advanced technology-based solar recycling company, today announced in partnership with Georgia Governor Brian P. Kemp, that the company will create more than 600 new full-time jobs in Polk County, investing an estimated \$344 million in a solar glass manufacturing facility in Cedartown.

When will solarcycle start manufacturing glass?

The plant, which will be the first of SOLARCYCLE’s facilities to manufacture glass in addition to recycling solar panels, is scheduled to begin construction in 2024 and will be operational in 2026. SOLARCYCLE will create full-time jobs in manufacturing, engineering, management, research and design, and support staff.

Can solar glass make c-Si photovoltaics?

SOLARCYCLE’s new facility in Georgia will position the company as one of the first manufacturers of specialized glass for crystalline-silicon (c-Si) photovoltaics in the U.S., with the capacity to make five to six gigawatts worth of solar glass every year.
