

Solar home power inverter

Overview

What is a solar inverter?

The solar inverter. It's the behind-the-scenes wizard that turns your panels' raw sunlight juice (DC power) into something your home can actually use (AC power). Pick a dud, and your solar dreams fizzle. Pick a champ, and you're golden.

Do you need a solar inverter?

Solar inverters are a necessary but often forgotten part of a home solar panel system since they convert sunlight into usable electricity for your home appliances. Without a solar inverter, you wouldn't be able to use those solar panels to power your home.

Which solar inverter is best?

CNET experts have compared the most popular solar inverters' specs, warranties, prices and more. The SolarEdge Home Wave Inverter is our top pick in 2025. It was the most efficient inverter we looked at, letting you use a larger percentage of the energy your solar panels generate. This translates to less and more power to use around the house.

What are the different types of solar inverters?

When it comes to home solar installation, homeowners have three types of solar inverters to consider: string inverters, string inverters with DC power optimizers and microinverters. Each inverter setup comes with upsides and downsides. Here's what you should know.
