

Solar panels power generation in Auckland New Zealand

Overview

How to optimize solar generation in Auckland New Zealand?

Assuming you can modify the tilt angle of your solar PV panels throughout the year, you can optimize your solar generation in Auckland, New Zealand as follows: In Summer, set the angle of your panels to 21° facing North. In Autumn, tilt panels to 41° facing North for maximum generation.

How much solar power does Auckland have?

Seasonal solar PV output for Latitude: -36.8506, Longitude: 174.7679 (Auckland, New Zealand), based on our analysis of 8760 hourly intervals of solar and meteorological data (one whole year) retrieved for that set of coordinates/location from NASA POWER (The Prediction of Worldwide Energy Resources) API: Average 7.17kWh/day in Summer.

Is Auckland a good location for solar power generation?

Auckland, New Zealand (latitude: -36.8506, longitude: 174.7679) is a suitable location for solar power generation due to its relatively high levels of sunshine throughout the year.
