

Solar panels solar power generation in Eastern Europe

Overview

Is Eastern Europe a promising market for solar energy deployment?

Eastern Europe indeed represents a promising market with untapped potential in solar energy deployment, given its early-stage market development. Solar energy, being highly competitive and increasingly cost-effective, is expected to play a key role in the region's energy future.

What percentage of European electricity comes from solar energy?

In 2024, 46.9% of the electricity generated in the EU came from renewables and 22% of renewable electricity came from solar energy (Eurostat, March 2025). June 2025 was the first month in history where solar energy was the main source of electricity generated in the EU at 22%. Source: SolarPower Europe.

How much solar power does the EU have in 2024?

Source: SolarPower Europe The EU solar generation capacity keeps increasing and reached, according to SolarPower Europe, an estimated 338 GW in 2024. The EU has long been a front-runner in the roll-out of solar energy. Under the European Green Deal and the REPowerEU plan, solar power is a building block of the EU's transition to cleaner energy.

How much solar energy does the EU generate in 2025?

June 2025 was the first month in history where solar energy was the main source of electricity generated in the EU at 22%. Source: SolarPower Europe The EU solar generation capacity keeps increasing and reached, according to SolarPower Europe, an estimated 338 GW in 2024.

Solar panels solar power generation in Eastern Europe

[Central and Eastern Europe leads Europe in rapid solar power ...](#)

Aug 21, 2024 · Solar power generation is increasing more rapidly in Central and Eastern Europe than in any other region on the continent, outpacing the growth seen in wealthier and sunnier ...

[Eastern Europe Solar PV Outlook 2024.](#)

Sep 19, 2024 · Eastern Europe Solar PV Outlook 2024 - This outlook covers the key solar market drivers and challenges for large-scale development and distributed solar generation in Poland, ...

[Eastern European solar has 'untapped potential', says ...](#)

Nov 12, 2024 · Trinasolar spoke to PV Tech ahead of the Large Scale Solar Central Eastern Europe event about the PV potential in Eastern Europe.

[The Sun Rises in the East: Up-And-Coming ...](#)

May 23, 2024 · A new era for solar energy is dawning in Eastern Europe: According to the European industry association SolarPower Europe, ...

[Central and Eastern Europe increasingly in the solar gigawatt...](#)

Sep 5, 2024 · Photovoltaics in Central and Eastern Europe surges, led by Poland, with Bulgaria, Romania, and the Czech Republic also rapidly advancing.

The Sun Rises in the East: Up-And-Coming Solar Market in Eastern Europe

May 23, 2024 · A new era for solar energy is dawning in Eastern Europe: According to the European industry association SolarPower Europe, Poland and Hungary are among the top ...

[Surprising new data shows a new region surging to ...](#)

Jun 28, 2025 · New data shows that Eastern Europe has become a global leader in solar energy and is far outpacing the rest of the continent. Over the past five years, the nine largest solar ...

[EU Solar Market Outlook 2025-2030](#)

4 days ago · With decisive and coordinated action, Europe can still reverse the current negative trend, as solar and battery storage are incredibly swift to deploy. SolarPower Europe stands ...

[Central and Eastern Europe increasingly in the ...](#)

Sep 5, 2024 · Photovoltaics in Central and Eastern Europe surges, led by Poland, with Bulgaria, Romania, and the Czech Republic also rapidly ...

[Surprising new data shows a new region ...](#)

Jun 28, 2025 · New data shows that Eastern Europe has become a global leader in solar energy and is far outpacing the rest of the continent. Over ...

[Eastern European solar has 'untapped ...](#)

Nov 12, 2024 · Trinasolar spoke to PV Tech ahead of the Large Scale Solar Central Eastern Europe event about the PV potential in Eastern Europe.

Solar energy

Source: SolarPower Europe The EU solar generation capacity keeps increasing and reached, according to SolarPower Europe, an estimated 338 GW in 2024. The EU has long been a front ...

[EU installs 65.1 GW of solar in 2025 - pv magazine ...](#)

3 days ago · The European Union deployed 65.1 GW of solar this year, according to SolarPower Europe's EU Solar Market Outlook 2025-2030. The figure is a 0.7% decrease on the 65.6 GW ...

[Maguire: Eastern Europe's Secretive Surge In Solar](#)

Jun 3, 2025 · Thanks to the continued increase in solar power generation and further reductions in coal power production in Eastern Europe, emissions could continue to fall and play a major ...
