

# **Solar tile design in Sydney Australia**

## Overview

---

Should you install solar tiles on your roof in Australia?

Instead of bolting bulky systems onto your roof, solar tiles integrate directly into the roof structure —combining durability, energy savings, and architectural design in one. So if you're considering solar tiles in Australia, this guide covers everything you need to know before you build or upgrade. What Are Solar Tiles?

.

What are solar tiles?

Solar tiles, also known as photovoltaic (PV) roof tiles, generate electricity just like traditional solar panels—but they're built to look and function like regular roofing material. Rather than being mounted on top of your roof, these tiles replace parts of the roofing surface itself.

Which solar panels are made in Australia?

Modules designed and engineered in AUSTRALIA. WOLAR LUNA solar tiles feature a more classic exterior shell that is made to resemble a Spanish roof tile, for a more natural appearance on any roof. It is layered with white tempered glass , both front and back.

Do solar tiles work in Australia?

Australia's sun is strong, and our climate is tough. That makes solar tiles a smart solution for long-term performance, especially in locations like: Here's why solar tiles work so well in Australian homes: 1. Seamless Appearance Solar tiles sit flush with slate or ceramic roofing.
