South Sudan factory UPS uninterruptible power supply equipment

Overview

What is a ups power supply & how does it work?

Our UPS power supply provides protection from power surges, load shedding and unpredictable weather conditions. Uninterruptible Power Supply (UPS) ensures its internal battery gets constantly charged from the main electrical grid supply and delivers a steady, consistent electricity flow to any equipment or appliance plugged into it.

What is uninterruptible power supply?

Uninterruptible Power Supply protects your electricals from the adverse effects of brownouts, spikes and power outages. An uninterruptible power source or uninterruptible power supply is a power supply system responsible for providing emergency load in case of power failures.

What is a genuine UPS battery?

Genuine UPS Replacement batteries are tested and certified for compatibility to restore UPS performance to the original specifications. Genuine APC RBC (TM) are tested and certified for compatibility to restore UPS performance to the original specifications. The proven solution to restore UPS performance.
