

Spanish solar energy storage charging pile

Overview

What is energy storage in Spain?

It targets large-scale energy storage projects in Spain. It focuses on technologies like standalone battery energy storage systems (BESS), pumped hydro energy storage (PHES), and thermal energy storage. The program supports hybrid projects, which combine storage with renewable energy, such as solar or wind farms.

How will Spain increase its energy storage capacity?

Spain has launched an ambitious €700 million (around \$796 million) program to increase its energy storage capacity. This plan will add 2.5 to 3.5 gigawatts (GW) of storage. It includes pumped hydro, thermal energy storage, and battery systems.

What is Caceres solar power plant - thermal energy storage system?

The Caceres Solar Power Plant - Thermal Energy Storage System is a 50,000kW molten salt thermal storage energy storage project located in Caceres, Valdeobispo, Extremadura, Spain. The thermal energy storage battery storage project uses molten salt thermal storage storage technology. The project will be commissioned in 2013.

Why should Spain invest in energy storage?

Investing in energy storage helps Spain meet its climate goals. This includes achieving carbon neutrality by 2050. Storing renewable energy instead of wasting it helps the country rely less on fossil fuels. This also cuts down greenhouse gas emissions. Pumped hydro, thermal storage, and battery systems are effective technologies.

[Spain & Portugal: Galp Breaks Ground on 147MWh Grid-Forming Battery](#)

Aug 4, 2025 · A 5MW/20MWh BESS project Powin and Hitachi deployed for Galp in Portugal. Image: Powin / Hitachi / Galp. Galp has kicked off construction on five new battery energy ...

[Spain Launches EUR700 Million Energy Storage Scheme to ...](#)

Jun 3, 2025 · This new funding builds on earlier support under Spain's Recovery, Transformation and Resilience Plan (PRTR), which has already mobilized EUR730 million for 4.5 GW of storage ...

[5 Trends Shaping M&A in Spain's Energy Storage Market](#)

Jun 11, 2025 · Spain is rapidly becoming a hotspot for investment in energy storage. As the country continues its transition to renewable energy sources, demand for flexible grid ...

[Spain awards 133 energy-storage projects totaling 2.4 GW ...](#)

Dec 1, 2025 · Spain's Institute for the Diversification and Saving of Energy confirmed EUR827 million (\$961.4 million) in European Regional Development Fund co-financing for 133

energy-storage ...

[Top five energy storage projects in Spain](#)

Sep 10, 2024 · The La Africana Solar Power Plant - Thermal Energy Storage System is a 50,000kW molten salt thermal storage energy storage project located in Posadas, Spain. The ...

Spain's EUR700 Million Plan to Boost Energy Storage and Renewable Power

Jun 3, 2025 · It targets large-scale energy storage projects in Spain. It focuses on technologies like standalone battery energy storage systems (BESS), pumped hydro energy storage ...

[Current situation and challenges of energy storage in Spain](#)

Aug 1, 2025 · Parallel, galp has begun the development of two major energy storage facilities in Spain and Portugal, adding a capacity of 74 MW, with advanced battery systems that include ...

[Spain second country in world for stand-alone battery-based ...](#)

Dec 20, 2024 · Renewable energy will cover almost half of the world's electricity demand by 2030, according to the Renewables 2024 report by the International Energy Agency (IEA), thanks to ...

[Spain Leads Europe in Solar-Plus-Storage with EUR148.5M ...](#)

Aug 7, 2025 · Spain invests EUR148.5M in solar-plus-storage projects, making battery systems mandatory for renewables and setting a new EU energy standard.
