

# Standard storage location base station for solar container lithium battery station cabinet

## Overview

---

What is pknergy 1MWh battery energy solar system?

The PKENERGY 1MWh Battery Energy Solar System is a highly integrated, large-scale all-in-one container energy storage system. Housed within a 20ft container, it includes key components such as energy storage batteries, BMS, PCS, cooling systems, and fire protection systems.

What is a 20ft container energy storage system?

It also includes automatic fire detection and alarm systems, ensuring safe and efficient energy management. The 20FT Container 250kW 860kWh Battery Energy Storage System is a highly integrated and powerful solution for efficient energy storage and management.

What is a 1MWh Battery Energy Storage System?

A 1MWh Battery Energy Storage System, such as PKENERGY's 20ft container solution, stores energy equivalent to 1 megawatt-hour. It includes 5 clusters connected to a 500kVA power conversion system (PCS) for output at 340-440VAC. The system also includes a 500kW three-phase inverter with a 98.3% conversion efficiency and a 300kW inverter for DC to AC conversion.

How to protect a lithium battery energy storage cabinet?

At the same time, setting the charging and discharging parameters, configuring the safety and protection settings, and protecting the lithium battery energy storage cabinet from potential dangers such as overcurrent, overvoltage, and overtemperature are necessary.
