

Tajikistan household energy storage power supply price

Overview

Does Tajikistan have a power system?

The existing electrical transmission and distribution systems of Tajikistan, designed in the 1970s during the Soviet era, are also being upgraded and expanded, allowing transmission of power from Tajikistan to surrounding countries.

How much does electricity cost in Tajikistan?

Prices vary but people typically pay 1.5 US cents/kWh. The TajikAluminum Company (TALCO), is the largest consumer in Tajikistan and uses about 50% of total electricity consumption. Many components of the transmission and distribution system are in bad condition and need to be replaced.

Can Tajikistan become a net energy exporter?

The Government of Tajikistan aims to transform itself from a net energy importer to a net energy exporter, on the strength of its potential for hydropower and solar power production. According to the World Bank, Tajikistan's power production is 92 percent hydropower, six percent hydrocarbon, and two percent from other sources.

What is the main source of energy in Tajikistan?

Based on close co-ordination with the Academy of Sciences and its public research institutions, relevant ministries, national enterprises, SMEs, international financial institutions (IFIs), and other bilateral or multilateral donors in the energy sector. Hydropower is the main source of energy in Tajikistan, followed by imported oil, gas and coal.
