

# Terrace Solar System

## Overview

---

How many solar panels are on the Terrace site?

The Terrace site at Northern Solar Project has 8 roof-top solar panels. These panels, which are thin-film and a newer technology that works better in low-light conditions, were installed by community members during a workshop in the fall of 2013. They are grid-tie, meaning that any excess electricity is fed into the grid and sold to BC Hydro.

What is the Sky Terrace at Intersection Tavern?

The Sky Terrace at Intersection Tavern, adjacent to the bistro, provides prompt service of delicious house-made food. It also features a private bar for your guests' refreshments. Your celebration can be enhanced with a DJ or even a photo booth for your guests.

Is solarterrace a full earthing system?

With pre-fitted pressure bolts and star washers in post head, post brace and pre-assembled support, it can create earthing continuity from T rail to post. In this way, SolarTerrace™ II-A system is a full earthing system.

Can a solar PV plant be installed atop a building terrace?

Here was an opportunity to install a Solar PV Plant atop a building terrace, but without letting go of precious terrace space that was needed to be utilised for other activities – a classic case of having your cake and eating it too !
