

Thailand Public Solar Base Station Lead-acid Battery

Overview

Who makes lead-acid batteries in Indonesia?

The Indonesian lead-acid battery industry is concentrated, with major players including GS Battery, Yuasa Battery Indonesia, and Trimitra Baterai Prakasa, according to Business Wire. These companies, subsidiaries of Japan's GS Yuasa Corporation, dominate the market with strong local manufacturing and distribution networks.

Does Thailand need a battery energy storage system?

Thailand may lack the Battery Energy Storage Systems (BESS) necessary to navigate supply and demand challenges. The 2024 PDP draft included 10,000 MW of BESS, but this may see the country struggle to fulfil carbon neutrality and Net Zero commitments over the coming decades.

What is the battery industry like in Thailand?

The Thai battery industry is concentrated, with the top five manufacturers accounting for a majority of market revenue. Leading players such as Siam Furukawa and Siam GS Battery specialise in lead-acid batteries, benefiting from strong relationships with automotive manufacturers.

Who makes Li-ion batteries in Singapore?

Singapore's Li-ion battery industry is primarily operated by subsidiaries of international manufacturers. Companies such as Energizer Singapore and Murata Electronics Singapore play a key role in domestic battery production, while lead-acid battery manufacturing is led by firms such as Chloride Batteries and Narada Asia Pacific.
