Thailand solar energy storage solar container lithium battery supply

Overview

Does Thailand need a battery energy storage system?

Thailand may lack the Battery Energy Storage Systems (BESS) necessary to navigate supply and demand challenges. The 2024 PDP draft included 10,000 MW of BESS, but this may see the country struggle to fulfil carbon neutrality and Net Zero commitments over the coming decades.

What is the demand for battery energy storage systems in Thailand?

The demand for battery energy storage systems in Thailand has been growing as the country's renewable energy capacity expands. This trend is expected to continue in the post-pandemic era. In the Thailand Battery Energy Storage Market, leading players include international companies such as Tesla, LG Chem, and BYD.

How many mw can a solar generator store in Thailand?

Their total combined storage capacity was 994 MW. Interestingly, this allowed generators to sign semi-firm power purchase agreements (PPAs) with the Electricity Generating Authority of Thailand (EGAT) with minimum availability guarantees. Many solar projects in Thailand have non-firm PPAs in place due to a lack of storage on site.
