The first new energy storage project

Overview

When is Tesla Shanghai energy storage megafactory launching production?

Tesla Shanghai energy storage Megafactory launches production on February 11. Photo: courtesy of Tesla. Tesla held a ceremony on Tuesday to mark the production launch of its Megapack energy storage plant in Shanghai's Lingang New Area, meaning Tesla's China operations has entered a new phase, the Global Times has learned.

Where is Tesla's first energy storage Gigafactory?

This photo shows a commercial energy-storage system at US carmaker Tesla's gigafactory in Shanghai, Feb 11, 2025. [Photo/Xinhua] As Tesla's first energy storage gigafactory outside the United States, the new Lin-gang plant only took nine months from groundbreaking, which took place in May 2024, to official operation.

How much does Tesla's Energy Storage project cost?

Covering about 200,000 square meters, the new energy storage project attracts a total investment of 1.45 billion yuan (\$200 million). Up to 10,000 Megapack units are scheduled to be produced here annually. This photo shows a commercial energy-storage system at US carmaker Tesla's gigafactory in Shanghai, Feb 11, 2025. When does Tesla start building a megafactory?

Tesla began construction of the Shanghai Megafactory on May 23, 2024, its first energy storage project outside of the US. The Megafactory will begin capacity ramp-up in the first quarter and is expected to help Tesla improve its supply of energy storage products.

The first new energy storage project

[First demo to unite tidal power, battery storage and ...](#)

3 days ago · A demonstration combining tidal power, battery storage, and hydrogen production has been completed in Scotland, marking what is said to be the first time these three ...

[Tesla battery Megafactory in Shanghai launches production](#)

Feb 11, 2025 · Tesla's energy storage plant in Shanghai's Lin-gang Special Area commenced operation on Feb 11, as the assembly line started the production of the first Megapack unit. ...

[Tesla Megafactory in Shanghai begins production of ...](#)

Feb 11, 2025 · The Megafactory is the first of its kind built by Tesla outside the United States and is dedicated to manufacturing Megapacks, Tesla's energy-storage batteries. Mass production ...

[Tesla's new mega factory project in Shanghai officially ...](#)

Dec 22, 2023 · The new project, located in the Lingang new area of the China (Shanghai) Pilot Free Trade Zone, is scheduled to break ground in the first quarter of 2024 and start production ...

[China's largest standalone battery storage project powers up](#)

Dec 8, 2025 · A 500 MW / 2,000 MWh standalone BESS in Tongliao, Inner Mongolia, has begun commercial operation following a five-month construction period, reflecting China's ...

[Tesla Shanghai Megafactory officially starts production](#)

Feb 11, 2025 · Tesla began construction of the Shanghai Megafactory on May 23, 2024, its first energy storage project outside of the US. The Megafactory will begin capacity ramp-up in the ...

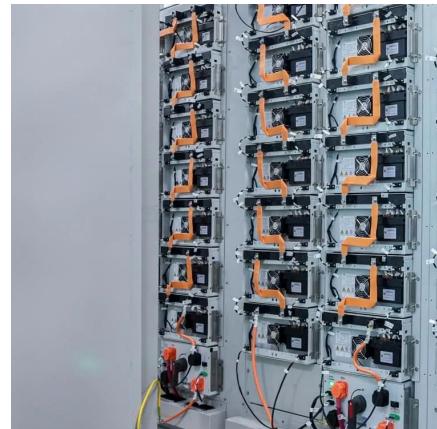

[Tesla battery gigafactory in Shanghai launches production](#)

2 days ago · As Tesla's first energy storage gigafactory outside the United States, the new Lin-gang plant only took nine months from groundbreaking, which took place in May 2024, to ...

Tesla's Shanghai megapack battery plant enters production ...

Feb 11, 2025 · Tesla held a ceremony on Tuesday to mark the production launch of its Megapack energy storage plant in Shanghai's Lingang New Area, meaning Tesla's China operations has ...

World's First High-Power Aluminum-Ion Battery System for Energy Storage

Dec 8, 2025 · The INNOBATT research project, coordinated by Fraunhofer Institute for Integrated Systems and Device Technology (IISB), has successfully developed and tested a full-scale ...
