The largest energy storage project in Paris

Overview

Will TSLA power France's largest energy storage system?

Tesla (TSLA) has secured a massive new Megapack order that will power France's new largest energy storage system. TagEnergy announced today that it started construction on a new energy storage project in Marne, which should become France's largest battery project. They confirmed that they will use Tesla Megapacks::

Where is France's largest battery energy storage system located?

TagEnergy, in partnership with Tesla, has officially begun construction on France's largest battery energy storage system (BESS) in Cernay-lès-Reims, located in the department of Marne .

Could Tesla Megapack power France's largest battery energy storage system?

From ESS News UK-based renewables developer Harmony Energy is looking to deliver France's largest battery energy storage system (BESS)—the Cheviré project – using Tesla Megapack technology. The 100 MW project will mark a significant milestone for the French energy system, being the nation's first large-scale two-hour battery, the developer said.

How big is France's energy storage capacity?

Global energy storage capacity was estimated to have reached 36,735MW by the end of 2022 and is forecasted to grow to 353,880MW by 2030. France had 90MW of capacity in 2022 and this is expected to rise to 359MW by 2030. Listed below are the five largest energy storage projects by capacity in France, according to GlobalData's power database.

The largest energy storage project in Paris

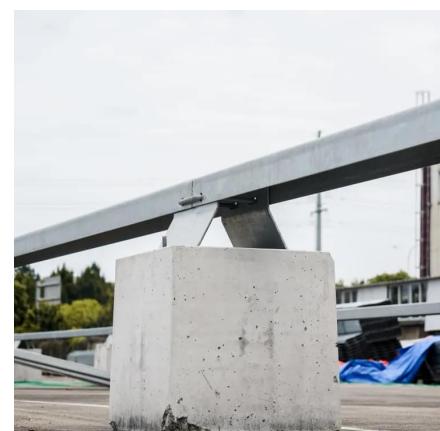

[Harmony Energy to build France's largest battery storage project](#)

Jul 23, 2024 · UK-based renewables developer Harmony Energy is looking to deliver France's largest battery energy storage system (BESS)--the Cheviré project - using Tesla Megapack ...

[TagEnergy and Tesla Break Ground on ...](#)

Dec 6, 2024 · TagEnergy, in partnership with Tesla, has officially begun construction on France's largest battery energy storage system (BESS) in ...

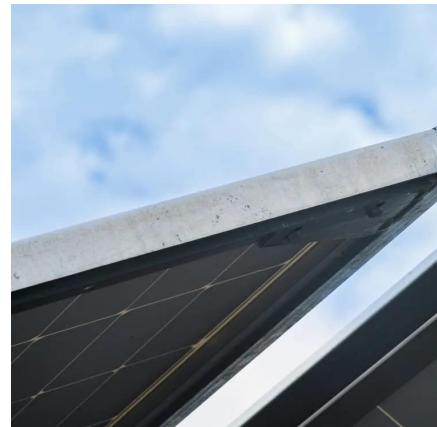

[Top five energy storage projects in France](#)

Sep 10, 2024 · Global energy storage capacity was estimated to have reached 36,735MW by the end of 2022 and is forecasted to grow to 353,880MW by 2030. France had 90MW of capacity ...

[Top five energy storage projects in France](#)

Jul 23, 2024 · UK-based renewables developer Harmony Energy is looking to deliver France's largest battery energy storage system (BESS)--the ...

[TagEnergy and Tesla Break Ground on France's Largest Battery Energy](#)

Dec 6, 2024 · TagEnergy, in partnership with Tesla, has officially begun construction on France's largest battery energy storage system (BESS) in Cernay-lès-Reims, located in the department ...

[Largest battery energy storage system to be built in France](#)

Jul 24, 2024 · In a recent statement, Harmony Energy announced that it will implement the largest battery energy storage system in France. The Cheviré project, which will use advanced ...

[Tesla \(TSLA\) Megapacks will power France's new largest](#)

Dec 6, 2024 · TagEnergy announced today that it started construction on a new energy storage project in Marne, which should become France's largest battery project.

[Harmony Energy Powers Up France's Largest Battery Storage Project](#)

Aug 18, 2025 · Harmony Energy has brought online France's largest battery energy storage system (BESS), marking a significant step in the country's energy transition. The ...

[TagEnergy launches construction of France's largest battery energy](#)

Dec 3, 2024 · TAGENERGY, a global leader in low-carbon energy solutions, launches construction of France's largest battery energy storage platform (France, Marne). This ...

[TagEnergy launches construction of France's ...](#)

Dec 3, 2024 · TAGENERGY, a global leader in low-carbon energy solutions, launches construction of France's largest battery energy storage platform ...

How Paris's 200MWh Battery Project is Solving the City's Energy Storage

Why Paris's Grid Can't Keep Up with Renewable Ambitions Paris has pledged to source 45% of its energy from renewables by 2030 [1], but here's the catch: Solar and wind farms ...

The largest energy storage facility in France has been ...

In August 2025, the largest battery energy storage system in France was energized at the port of Nantes-Saint-Nazaire. The Cheviré project was developed by British company Harmony ...
