

The latest news on Australian battery energy storage companies

Overview

What is the largest battery energy storage project in Australia?

The battery energy storage system project is currently the largest battery energy storage project in Australia under construction. It is planned at Powell Creek to stabilise and store electricity generated from a six-gigawatt solar farm in the Barkly region.

How much is battery storage worth in Australia?

Credit: Phonlamai Photo / Shutterstock. The first quarter (Q1) of 2025 has seen a surge in investment for large-scale battery storage in Australia, with six projects worth a total of A\$2.4bn (\$1.5bn) reaching the financial commitment stage, according to the latest Clean Energy Australia Report 2025.

Is Australia leading the global battery storage boom?

Australia is leading the global battery storage boom with AUD 2.4B invested in Q1 2025. Discover how big batteries are replacing coal, stabilizing the grid, and driving the nation's clean energy transition.

Which country has the largest battery energy storage system?

* This question is required. According to the report, the largest battery energy storage system (BESS) project to reach financial commitment in Q1 was in Wooreen, Victoria, boasting a storage capacity of 350MW and an energy output of 1.4GWh. South Australia led in terms of capacity, with projects totalling 640MW/1.8GWh.
