

Tunisia 8-input 1-output solar combiner box

Overview

What is shlx-pv8/1 PV combiner box bus?

SHLX-PV8/1 PV combiner box bus synthetic DC input of 8 PV components to 1 output. Each channel is with a fuse. Output side is equipped with lightning protection and circuit breaker. It greatly simplifies input wiring of DC power distribution cabinet and inverter. Realizes lightning protection, short circuit protection and grounding protection.

What are the different types of PV combiner box?

PV combiner box divided into two types: intelligent box and non-intelligent box. Intelligent PV combiner box is equipped with monitoring unit, then detects input current of each string, detects inside temperature, detects lightning protection status, detects circuit breaker status and summarizes output voltage and so on.

What is a solar panel box made of?

Strict test for high and low temperature, used widely. The box body is made of cold rolled steel and other metal materials. Used for single crystal silicon solar modules, polycrystalline silicon solar modules, thin film solar modules. Current rating of the photovoltaic fuse, circuit breaker, load isolation switch is modified.
