

Uganda solar Tile Manufacturer

Overview

Where are modern tiles made in Uganda?

The Njeru town-based factory (in Buikwe District in central Uganda) currently produces 49,000 square metres of tiles per day, with the capacity planned to triple to 150,000 square metres per day at full capacity. According to Ashish Monpara, Modern Group's Chairperson, Modern Tiles currently employs 500 Ugandans directly.

What is solar energy used for in Uganda?

Solar energy is used to generate electricity, heat water, and provide lighting in Uganda. It can also be used to power homes, hospitals, schools, and businesses. Solar energy is an ideal choice for rural areas in Uganda where access to electricity is limited.

Who is modern tiles?

Modern Tiles is not just building in Uganda, we are building for Africa. Our cutting-edge technology and commitment to innovation position us as a leading brand across the continent. We are dedicated to providing exceptional quality tiles that meet the evolving needs of African design and construction.
