

Uninterruptible Power Supply for the Cook Islands

Overview

What is the Cook Islands infrastructure plan (NIIP)?

the Cook Islands, with the first being published in May 2015. The NIIP outlines the priorities and plans for major infrastructure investments over the next 10 years. The Plan was assembled through a consultative process involving a wide range of stakeholders, including government, international agencies, and the private sector.

What are the maritime infrastructure needs of the Cook Islands?

per capita maritime infrastructure needs of the Cook Islands. With 12 of its 14 islands having populations as low as 70 (Table 2.2), there is a need for government to provide safe and reliable services across the country. These services are provided by two private companies, though Government has recently recognized the need.

Who benefits the infrastructure in Rarotonga?

s identifies who the main benefactor of the infrastructure is. A national hospital or university campus, while built on Rarotonga, benefits the entire nation and as such would be flagged as “Cook Islands”. A study into the merits of a ferry service to the southern group of islands would be flagged “South

Will the Cook Islands Government be able to fund NIIP loans?

period.5.5 RecommendationsGreater Focus on Economic ReturnsGiven the fiscal impact of funding the full NIIP program (above), it is unlikely that the Cook Islands government will be able to fund these loans and stay within its fiscal constraints unless it experiences high r
