United Arab Emirates Dubai Energy Storage Charging Station Foreign Trade Wholesale

Overview

How many EV charging stations are there in Dubai?

The UAE Ministry of Energy and Infrastructure is leading on an ambitious plan to develop a national ultra-fast EV charging corridor. Total number of public EV charging stations in the Emirate of Abu Dhabi is about 250, while Dubai developed and installed 334 smart chargers across the emirate, equivalent to over six hundred charging points.

Is the UAE launching a hydrogen taxi system?

The UAE is exploring other transportation systems running on alternative fuels. The UAE cabinet approved a nationwide system for hydrogen vehicles, as the country is looking to increase production of blue and green variants of the fuel. In December 2019, it launched the trial run of the first hydrogen taxi in the Middle East.

What are hydrogen vehicle opportunities in the UAE?

Hydrogen vehicle opportunities include government and non-government buses, truck and taxi fleets. The UAE Ministry of Energy and Infrastructure is leading on an ambitious plan to develop a national ultra-fast EV charging corridor.

Who is building a hydrogen fueling station in Abu Dhabi?

The project will use DEWA's existing green hydrogen production facility at the Mohammed bin Rashid Al Maktoum Solar Park and ENOC's knowledge of the fuel market to build a hydrogen fueling station. Abu Dhabi National Oil Company (ADNOC) and Masdar, the Abu Dhabi-based renewable energy giant, are also partnering to build hydrogen stations.
