

Various inverter manufacturers in Moscow

Overview

Where to invest in solar power equipment in Russia?

For those looking to invest in solar power equipment, Russia is home to a vast logistics industry and they have several major seaports. The major seaports in Russia are Saint Petersburg, Vladivostok, Novorossiysk, Kaliningrad, Sosnogorsk, Privolzhsky, Pavlovsk, and Pyatigorsk. The aforementioned are some of the busiest ports in Russia and in Europe.

What is a solar microinverter?

A Microinverter or a Solar micro-inverter is an extremely small device used to convert DC to AC. These inverters are so small that they are used as plug-and-play. Microinverters work remotely with every panel. This is advantageous in case of panel failure or power surge.

Is Russia a good place to make solar panels?

Russia is one of the top countries in terms of renewable energy production. It is one of the top producers in the EU and the rest of the world. Therefore, there is a wide array of equipment suppliers and distributors in and out of Russia for those looking to make solar installations.
