

Victoria Power Emergency Energy Storage Module

Overview

How many energy storage projects are there in western Victoria?

In March 2018, 2 projects in Western Victoria were chosen to be part of The Energy Storage Initiative – one in Ballarat and one in Gannawarra. Construction for the Ballarat and Gannawarra Energy Storage Systems was completed in late 2018. Both batteries began operating over the summer of 2018 and 2019.

Why is Victoria a good place to store batteries?

Victoria is the home of big batteries and has legislated storage targets of at least 2.6 GW by 2030 and 6.3 GW by 2035 to provide crucial support for more renewable capacity. Storage is a vital part of our electricity grid. In the future, much of our energy will be generated closer to where it is used and the way we use it will be more efficient.

How many large-scale storage systems does Victoria have?

Victoria has 12 commissioned large-scale storage systems and 3 in commissioning – with a total output capacity of 1028 MW and storage capacity of more than 1.7 GWh. Storage capacity = how much total energy is stored in each battery. Output capacity = how much energy a battery can provide at a given time.

How many batteries are under construction in Victoria?

A further 13 batteries are under construction and 46 batteries have been granted development approval. Big batteries are being delivered through the SEC, Victorian Renewable Energy Target (VRET) program, Structured Transition Agreements, the Renewable Energy Zone (REZ) Stage 1 program, Energy Innovation Fund and more.

Victoria Power Emergency Energy Storage Module

[Melbourne Renewable Energy Hub to boost Victoria's grid ...](#)

4 days ago · The Melbourne Renewable Energy Hub battery project, jointly owned by the State Electricity Commission (SEC) and Equis Australia, has started supplying stored electricity to ...

[Tesla's 444 Megapacks Power Melbourne's ...](#)

3 days ago · The Melbourne Renewable Energy Hub (MREH) is now operational with 600MW/1,600MWh capacity, developed by Singapore ...

[Equis, SEC energise 600-MW Tesla-powered battery hub in Victoria](#)

4 days ago · Singapore-based Equis Development Pte Ltd and Victoria's State Electricity Commission (SEC) have powered up the Melbourne Renewable Energy Hub, a 600-MW/1,600 ...

[Victoria Approves 2,200MWh of Battery Storage through ...](#)

Nov 5, 2025 · The Victoria government in Australia has approved a 300MW/1,200MWh battery energy storage system (BESS) in Gippsland and a 332MW solar PV power plant in the state's ...

[Tesla Megapacks Go Online at Major \\$450M BESS in Australia](#)

4 days ago · A massive new Tesla Megapack-powered battery energy storage system (BESS) is now officially online in Victoria, Australia, marking the largest completed battery project on the ...

[Tesla's 444 Megapacks Power Melbourne's World-Class Energy Storage](#)

3 days ago · The Melbourne Renewable Energy Hub (MREH) is now operational with 600MW/1,600MWh capacity, developed by Singapore-based Equis Development and ...

[Franklin Battery: Plug-and-Play Solution, simplifying ...](#)

Feb 21, 2025 · Conclusion The FranklinWH solution remains unaffected by the Emergency Backstop Mechanism. With advantages including open ecosystem compatibility, rapid ...

[Anker Solix approved by Victorian and SA ...](#)

Jun 2, 2025 · Anker Solix has officially been approved by all major distributed network service providers in Victoria and South Australia for participation ...

FranklinWH System Simplifies Solar Retrofits under Victoria's Emergency

SYDNEY, May 5, 2025 /PRNewswire/ -- Victoria has rolled out significant new rules designed to keep the energy grid stable as solar adoption continues to rise. Having taken effect on 1 st ...

[Anker Solix approved by Victorian and SA DNSPs for emergency ...](#)

Jun 2, 2025 · Anker Solix has officially been approved by all major distributed network service providers in Victoria and South Australia for participation in the Emergency Backstop ...

[Batteries and energy storage projects](#)

Sep 2, 2025 · Batteries and energy storage projects Victoria is the home of big batteries and has legislated storage targets of at least 2.6 GW by 2030 and 6.3 GW by 2035 to provide crucial ...

[Victoria approves 2.2GWh of BESS via DFP](#)

Nov 3, 2025 · The Victoria government in Australia has approved a 300MW/1,200MWh BESS in Gippsland and a 332MW solar PV power plant with integrated storage.
