

Victoria solar Power Station Energy Storage Procurement

Overview

The Victoria government in Australia has approved a 300MW/1,200MWh battery energy storage system (BESS) in Gippsland and a 332MW solar PV power plant with integrated storage in the state's northeast region, via the Development Facilitation Program. How many energy storage projects are there in western Victoria?

In March 2018, 2 projects in Western Victoria were chosen to be part of The Energy Storage Initiative – one in Ballarat and one in Gannawarra. Construction for the Ballarat and Gannawarra Energy Storage Systems was completed in late 2018. Both batteries began operating over the summer of 2018 and 2019.

What is the Muskerry solar power station?

Australia's Environment Minister Tanya Plibersek has announced approval for the Muskerry Solar Power Station, a 250 MW solar farm and 200 MW, four-hour battery energy storage system being developed by Edify Energy in Victoria.

How many large-scale storage systems does Victoria have?

Victoria has 12 commissioned large-scale storage systems and 3 in commissioning – with a total output capacity of 1028 MW and storage capacity of more than 1.7 GWh. Storage capacity = how much total energy is stored in each battery. Output capacity = how much energy a battery can provide at a given time.

When will Victoria's new solar power plant be built?

Building works commenced in early 2024, with commissioning targeted in late 2026. Once in operation, the facility will deliver grid forming and stability services within Victoria's South West Renewable Energy Zone.

Victoria solar Power Station Energy Storage Procurement

[Australian government supports six new battery storage ...](#)

Sep 5, 2024 · The Australian Capacity Investment Scheme (CIS) is set to bolster energy storage capabilities in Victoria and South Australia with support for six new large-scale battery ...

[Battery Energy Storage System \(BESS\) Procurement Checklist ...](#)

Apr 14, 2025 · Understand what's important in an RFP for BESS procurement, components and BESS quality inspections. Improve your battery energy storage supply chain and FAT planning.

[Victoria Approves 2,200MWh of Battery Storage through ...](#)

Nov 5, 2025 · The Victoria government in Australia has approved a 300MW/1,200MWh battery energy storage system (BESS) in Gippsland and a 332MW solar PV power plant in the state's ...

[Energy Vault to Supply Victorian Government-Owned Renewable Energy](#)

Feb 15, 2025 · The project includes over 212,000 photovoltaic solar panels generating 119MW of solar power, capable of generating 242,000 MWh annually. Energy Vault's integration of a grid ...

[Victoria fast-tracks \\$453M battery project, reflecting new](#)

Oct 10, 2025 · Trina Solar, a global leader in solar technology and battery storage, brings world-class expertise to Victoria's clean energy transition. Located close to the Dederang Terminal ...

[Equis, SEC energise 600-MW Tesla-powered battery hub in Victoria](#)

3 days ago · Singapore-based Equis Development Pte Ltd and Victoria's State Electricity Commission (SEC) have powered up the Melbourne Renewable Energy Hub, a 600-MW/1,600 ...

[Energy Vault awarded BESS project contract from Victoria's SEC](#)

Feb 14, 2025 · Energy Vault has been tapped by Victoria's SEC to deliver a 100MW/200MWh government-owned battery energy storage system (BESS) in Australia.

[Edify lands federal approval for Victorian solar and storage ...](#)

Nov 20, 2024 · Australia's Environment Minister Tanya Plibersek has announced approval for the Muskerry Solar Power Station, a 250 MW solar farm and 200 MW, four-hour battery energy ...

Origin secures grid-connection for 300-MW battery in Victoria , Energy

Nov 12, 2025 · The Mortlake battery energy storage system (BESS) is being installed at the site of Origin Energy's gas-fired power station near Mortlake under an engineering, procurement and ...

[Batteries and energy storage projects](#)

Sep 2, 2025 · Batteries and energy storage projects Victoria is the home of big batteries and has legislated storage targets of at least 2.6 GW by 2030 and 6.3 GW by 2035 to provide crucial ...
