

Vientiane produces solar modules and solar panels

Overview

What is the solar panel manufacturing industry in Vietnam?

The solar panel manufacturing industry in Vietnam is growing for both foreign and domestic firms specializing in manufacturing photovoltaic cells and modules. The competition is especially fierce, given that there are mostly foreign-owned companies, including China and the US, with only one Vietnamese firm.

Who opened the first high-efficiency solar cell factory in Laos?

Zhongrun Laos Solar Technology Company Limited officially opened the first 5GW high-efficiency solar cell factory in Laos, contributing more than US\$2.4 billion to industrial production. The opening ceremony was attended by Prime Minister Sonexay Siphandone and the Mayor of Vientiane, Dr Atsaphangthong Siphandone, according to Paxason Newspaper.

Where is the LS solar module factory located?

The module factory established by LS Solar in the Saysettha Development Zone in Vientiane, Laos, is of great significance. It represents a crucial layout in the Southeast Asian market and demonstrates LS Solar's confidence and commitment to the development of the renewable energy industry. The factory is located in the Saysettha Development Zone.

Where are solar cells made?

The company's production base in Laos plans to build 9GW of battery plates and 3GW of high-efficiency solar cell panel assembly equipment, on a construction site of about 32 hectares, which is the largest solar cell equipment production centre in the world after China.
