

Warsaw Uninterruptible Power Supply Plant

Overview

Will Poland's first nuclear power plant be awarded to local companies?

The Polish government expects a significant share of work on the country's first nuclear power plant to be awarded to local companies, but there are steps needing to be taken by the Polish supply chain, the World Nuclear Supply Chain conference in Warsaw heard.

How does the public support nuclear projects in Poland?

The construction of the nuclear power plant is supported by the local community. Public support for nuclear investments remains resilient to external factors, such as political attitudes, geopolitical shifts and economic conditions. Nuclear projects in Poland enjoy strong public support.

How many nuclear power plants will be built in Poland?

It envisages the construction in Poland of two nuclear power plants with a capacity of 6-9 GW. The 2020 Polish Nuclear Power Programme is dedicated to the development of nuclear power (PPEJ)³. This document also needs to be amended, mainly because the schedule of investments in nuclear power plants it contains is already outdated.

How much will Poland invest in a power plant in 2025?

Poland will invest PLN 65 billion (EUR 15.58 bln) in the country's power grid in 2025 and PLN 60 billion (EUR 14.38 bln) in the construction of its first power plant, the industry minister has said. Fot. PAP/Leszek Szymański
