

Wellington PV container substation price

Overview

Will the work at Wellington substation change the nature of the development?

The work at Wellington Substation is consistent with the original development consent and will not significantly change the nature of the development. The work at Wellington Substation is subject to environmental assessment under Part 5 of the Environmental Planning and Assessment Act 1979.

What is a containerised substation?

Containerised substations are constructed and tested at our factory to allow quick 'plug and play' installation and commissioning on-site. We sell and hire containerised equipment on a 'supply only' basis, or with optional on-site installation, cable works and commissioning by our own Contracting division. Looking for containerised solution?

.

What is container type unitized compact substation?

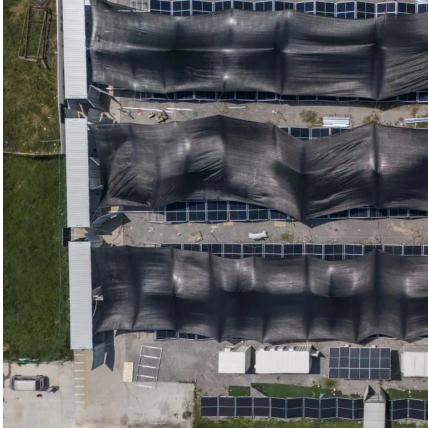

Container type unitized compact substation Container type unitized CSS compact substation is a complete type tested per latest IEC standard 62271-202 which is comprising a outdoor enclosure containing medium voltage (MV) switchgear, power or distribution transformers, low voltage (LV) switchboards.

What is a small distribution substation?

Smaller distribution substations are subdivided into container-sized modules, which can be manufactured, assembled and tested at the factory, allowing easy transport and fast installation and commissioning at site.
