

What are the hydrogen energy stations in Slovakia

Overview

Can You refuel with hydrogen in Slovakia?

The only hydrogen car on the Slovak market is the Toyota Mirai. So far, there is no possibility of refuelling in Slovakia; the nearest filling station is in Vienna. However, this should change soon. BCF Energy plans to establish 40 fuelling stations with hydrogen through the Benzinol network.

Is there a hydrogen car in Slovakia?

The use of hydrogen as an alternative fuel for cars is nothing new. However, this way of fuelling is spreading very slowly and the production of hydrogen cars is uncommon. The only hydrogen car on the Slovak market is the Toyota Mirai. So far, there is no possibility of refuelling in Slovakia; the nearest filling station is in Vienna.

When will Slovakia's Hydrogen strategy be adopted?

It is expected that this Action plan called "Prepared for the Future" would be adopted in early 2022. Some specific targets concerning hydrogen strategy can already be found in Slovakia's NECP. Want to know more about this policy ?
