

Where are the China Power Communication Signal Base Stations

Overview

How many 5G base stations are built in China?

As 5G serves as the foundation for the construction of new infrastructure, China, as the world leader in 5G base station construction, has already built over 1.4 million 5G base stations in 2021 alone. In the same year, 5G base stations in China produced approximately 49.2 million tons of CO₂ eq.

How much electricity does China use per base station?

For China, based on a single base station power's energy consumption of 11.5 KWh (Huawei, 2019), we estimate that the electricity consumed by its 5G network by 2030 will be 6.04×10^5 GW for 6 million base stations, the equivalents of 8.4 % of China's national total power generation in 2019, respectively.

Do communication base station operations increase electricity consumption in China?

Comparing data from 2021, 2025, and 2030, ⁴¹ we found that the electricity consumption due to communication base station operations in China increased annually.

How many telecom base stations are there in China in 2024?

In 2024, the number of telecom base stations in China is expected to increase to 12.65 million. Based on this, we estimate that the total electricity consumption of telecom base stations in China in 2024 will be 146,242.621 GWh.

Where are the China Power Communication Signal Base Stations

[China home to over 3.5M 5G base stations](#)

Apr 7, 2024 · This undated file photo shows a staff member installing equipment on a 5G base station in northwest China's Xinjiang Uygur Autonomous Region. (Xinhua) The number of 5G ...

[China home to 4.25m 5G base stations](#)

Jan 22, 2025 · The number of 5G base stations in China has hit 4.25 million, with the number of gigabit broadband users surpassing 200 million, official data showed Tuesday.

[The carbon footprint response to projected base stations of China...](#)

Apr 20, 2023 · We collected 5G base station numbers in 2020 and 2021 in 31 provinces and province-level municipalities (PLM), the period with the rapid growth of the 5G base stations in ...

[Low-Carbon Sustainable Development of 5G Base Stations in China](#)

May 4, 2024 · 5G base stations are categorized into micro base stations, macro base stations, and indoor sub-systems based on their transmit power and coverage. As 5G operates at a ...

[Low-carbon upgrading to China's communications base stations ...](#)

Nov 21, 2025 · As China rapidly expands its digital infrastructure, the energy consumed by communication base stations has grown dramatically. Traditionally powered by coal ...

[Shanghai Leads China for Outdoor 5G Base Stations, Vice](#)

(Yicai) Dec. 13 -- Shanghai continues to lead China in the number of outdoor base stations for fifth-generation mobile network technology, the city's vice mayor revealed. Shanghai has built ...

[China to construct over 4.5 million 5G base stations in 2025](#)

Jan 2, 2025 · China ended 2024 with over 4.19 million 5G base stations China plans to construct over 4.5 million 5G base stations in 2025 while introducing additional policy and financial ...

[Ambitious 5G base station plan for 2025](#)

Nov 23, 2025 · Technicians from China Mobile check a 5G base station in Tongling, Anhui province. [Photo by Guo Shining/For China Daily]
China aims to build over 4.5 million 5G base ...
